Interests and Surgical Experience

- Skull Base Neurosurgery, Vascular Neurosurgery (Open and Endovascular), Craniovertebral Junction surgery, Neurooncology (Awake surgery, brain mapping and intra-operative monitoring). I have a huge surgical experience in craniovertebral junction (performed/participated in more than 1000 craniovertebral junction surgeries), skull base tumors and neuro-oncology. I have performed open and endovascular procedures on various complex aneurysms. I have been an active participant/performed some of the most complex neurosurgical operations.
- Study of microsurgical neuroanatomy with a special interest in white fiber anatomy. (Have published a novel classification of white fibers of the brain based on three dimensional understanding of the architecture of the fibers)
